

Julie Benniardi is a co-founder of ReWeave L.A. a company focused on sustainable luxury.

Born in Indonesia and raised in Los Angeles, Julie credits her international and bicultural background as a major influence in her interior design work.

For Julie, ReWeave L.A. is the perfect intersection of passion and purpose. She believes that a one size fits all approach to business doesn't work and hopes ReWeave L.A. will inspire others to think differently about the role of companies in society. Through ReWeave L.A., Julie and her co-founder, Debbie Ouyang, strive to make a positive social impact by reducing textile waste in the interior design industry and help job train homeless women in Los Angeles.
